

ABAD ALI

Shahjahanpur, Uttar Pradesh, India | abadali1707@gmail.com | abadali.vercel.app | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Full-Stack Developer specializing in MERN stack and Next.js, experienced in building AI-powered platforms, real-time applications, and scalable web systems. Proficient in designing REST APIs, authentication workflows, database architectures, and cloud deployments using modern JavaScript technologies.

EXPERIENCE

Web Development Intern | InAmigos Foundation | June 2026 – July 2026

- Developed responsive web layouts using HTML/CSS and conducted UI/UX audits for structural improvements.
- Developed a responsive portfolio web application focused on modern UI design, usability, and device compatibility.
- Designed high-fidelity web interfaces using Figma to establish modern digital brand identities for NGO initiatives.

TECHNICAL SKILLS

- **Languages:** JavaScript (ES6+), C, C++, HTML5, CSS3
- **Frontend:** React.js, Next.js, Redux Toolkit, Tailwind CSS, shadcn/ui, Framer Motion
- **Backend:** Node.js, Express.js, REST APIs, JWT, bcrypt.js
- **Database & Cloud:** MongoDB, Mongoose, Cloudinary
- **APIs & Realtime:** Google Gemini API, Socket.IO, Axios
- **Tools:** Git, GitHub, Postman, VS Code, Vercel, Render

PROJECTS

DocMind AI - AI-Powered Document Intelligence Platform | [GitHub](#) | [Live App](#)

Tech Stack: Next.js, Node.js, Express.js, MongoDB, Google Gemini API, JWT, Tailwind CSS | Vercel, Render

- Developed a full-stack AI document platform using Next.js, Express.js, MongoDB, and the Google Gemini API for document-based interactions.
- Implemented JWT-based role authentication with separate Admin and User workflows, including document upload, PDF management, and AI-assisted metadata generation.
- Built AI-powered features for document summarization, contextual Q&A, and interactive PDF chat.
- Reduced redundant AI requests by caching generated summaries and Q&A data in MongoDB, improving response time and lowering API usage.
- Integrated Cloudinary file uploads, validation, email sharing, and responsive UI across devices.

NexaConnect - Full-Stack Social Media Platform | [GitHub](#) | [Live App](#)

Tech Stack: Next.js, Node.js, Express.js, MongoDB, Socket.IO, Redux Toolkit | Vercel, Render

- Built a full-stack social media application with secure JWT authentication and encrypted password storage using bcrypt.
- Built real-time messaging infrastructure using Socket.IO supporting instant one-to-one communication, online presence tracking, and event-based notifications.
- Designed REST APIs for posts, comments, likes, follows, and user profiles.
- Implemented Redux Toolkit for state management and built reusable responsive UI components.

Enterprise Task Hub – Role-Based Workforce Management System | [GitHub](#) | [Live App](#)

Tech Stack: Next.js, Node.js, Express.js, MongoDB, JWT, Tailwind CSS | Vercel, Render

- Developed a full-stack task management platform with role-based access control (RBAC), providing separate dashboards and permissions for Admin and Employee users.
- Implemented secure authentication using JWT and HTTP-only cookies with role-based authorization.
- Built task workflows including assignment, priority tracking, status updates, and submission review processes.
- Designed REST APIs with Express.js and MongoDB for managing users, tasks, and application data.

EDUCATION

Bachelor of Computer Applications (BCA) | 2023 – 2026

Sun Institute of Management and Technology (Affiliated with MJPRU), Shahjahanpur, India

Percentage: 73.14%
